

Figure 1: A hand-drawn sketch of a landscape or terrain profile. The profile shows a series of connected line segments representing the ground surface. The profile starts at a low point on the left, rises to a peak, then falls to a lower point, and finally rises again to a higher point on the right. There are some faint lines and markings around the profile, possibly indicating a path or other features.

The profile is drawn on a grid. The horizontal axis represents distance, and the vertical axis represents elevation. The profile starts at a low point on the left, rises to a peak, then falls to a lower point, and finally rises again to a higher point on the right. There are some faint lines and markings around the profile, possibly indicating a path or other features.
